

Supi Saunapesu Cleaning Agent

Supi Saunapesu Cleaning Agent

DESCRIPTION SUPI Saunapesu is an acidic cleaning agent which disinfects, bleaches, and dissolves lime scale deposits in saunas and other humid rooms

PRODUCT FEATURES For sauna and other humid rooms. Gentle and thus non-corrosive. However, care should be taken when cleaning tile joints with concentrated or strong solutions. Do not use together with products containing chlorine.

RECOMMENDED USES For sauna and other humid rooms.

TECHNICAL DATA

Can sizes 1 l.

Thinner Water

Mixing ratio Depending on the degree of contamination, add 1 to 2 dl of Supi saunapesu to 5 litres of water.

Application method Brush or sponge.

Density 1.03 kg/l, ISO 2811

Storage Protect from frost.

Product code 001_7099

Supi Saunapesu Cleaning Agent

APPLICATION DETAILS

Application conditions	The temperature of the air should be at least +5 °C, and the relative humidity of the air below 80 %.
Cleaning	Dosage: Depending on the degree of contamination, add 1 to 2 dl of Supi saunapesu to 5 litres of water. Dissolving of lime: Use a 10-15% solution. Supi Saunapesu can be used unthinned on persistent lime scale deposits and dirt stains. Bleaching of sauna benches: Mix equal amounts of SUPI Saunapesu and water (1:1), and allow to act for approx. 15 minutes. Note! Always rinse the surface with clean water after treatment.

Cleaning of tools Clean with water.

HEALTH AND SAFETY LABELLING according to Regulation (EC) No. 1272/2008

Corrosive, C Contains: Phosphoric acid Safety Data Sheet - Supi Sauna Cleaner

Corrosive

ENVIRONMENTAL and WASTE DISPOSAL	Avoid spillage into drains, water systems and soil. Empty cans should be recycled or disposed of in accordance with local regulations. Liquid waste should be destroyed according to the local regulations for hazardous waste.
TRANSPORT	VAK/ADR 8 III
